Product Designer with experience designing AI-assisted workflows and teacher-facing tools, focused on simplifying complex systems.

EXPERIENCE

Sept 2025 - March 2026 | Remote

UX/UI Design Intern | RightOn Education

- Led and co-facilitated usability testing, synthesizing insights into user flows that improve speed and clarity of classroom content creation experiences for teachers.
- Co-designed and iterated on AI-assisted question generation workflows, balancing user control and cognitive load, resulting in quicker, context-specific outputs aligned with real classroom needs.
- Contributed to early product development of a new RightOn tool, defining user flows, prototyping via AI-assisted development, and moderating pilot tests with teachers, resulting in validation of the core AI-driven approach.

Jun 2025 - Aug 2025 | Cedar Knolls, NJ

UX/UI Design Intern | Fingerprint Group

- Transformed low-fidelity wireframes into high-fidelity designs for a pharmaceutical website redesign, accelerating client approvals while ensuring alignment with established guidelines.
- Systematically iterated designs by meticulously incorporating internal and client feedback, resulting in quicker turnaround for accurate, client-approved content.

Jan 2022 - Sept 2022 | Las Vegas, NV

Architectural Associate | LTRD Corporation

- Improved architectural drawing sets by verifying proper material call-outs and making plan revisions, resulting in a significant decrease in RFIs from contractors and faster project turnaround.
- Instituted a peer review process for drawing sets, increasing the quality of drawing sets and reducing rework due to drafting errors.

EDUCATION

Designlab UX Academy

UX/UI Designer Certification | 2024

University of Nevada, Las Vegas

B.S. Architecture | 2021
